ANGIOGRAPHIC CATHETERS
A Comprehensive Offering to Meet Your Peripheral Angiography Needs

Common Angiographic Catheter Shapes for Vessel Selection

**Visceral Region**
- **Arteries**
  - Superior mesenteric artery
  - Renal arteries
  - Common iliac artery
  - External iliac artery
  - Saphenous vein
  - Femoral vein
  - Popliteal artery
  - Gastroduodenal artery
  - Splenic artery
  - Hepatic artery
  - Superior mesenteric artery
  - Left renal artery
  - Right renal artery
  - Common carotid artery
  - Internal carotid artery
  - Thoracic aorta
  - Thoracic duct
  - Aorta
  - Inferior vena cava
  - Inferior mesenteric artery
  - Ascending aorta
  - Pulmonary trunk
  - Pulmonary artery

**Veins**
- Superior vena cava
- Inferior vena cava
- Common femoral vein
- External iliac vein
- Femoral vein
- Popliteal vein
- Saphenous vein
- Great saphenous vein
- Thoracic duct

**Cerebral Region**
- Left and Right Subclavian Artery and Vein
- Left and Right Carotid Artery and Vein
- Left and Right Jugular Vein
- Left and Right Anterior Jugular Vein
- Left and Right Internal Jugular Vein

**Peripheral Region**
- Left and Right Femoral Artery and Vein
- Left and Right Gastroepiploic Artery and Vein
- Left and Right Common Femoral Artery and Vein
- Left and Right Common Femoral Vein
- Left and Right Femoral Vein
- Left and Right Femoral Vein
- Left and Right Popliteal Artery and Vein
- Left and Right Anterior Tibial Artery and Vein
- Left and Right Posterior Tibial Artery and Vein
- Left and Right Peroneal Artery and Vein
