**ANGIOGRAPHIC CATHETERS**

A Comprehensive Offering to Meet Your Peripheral Angiography Needs

---

**Common Angiographic Catheter Shapes for Vessel Selection**

### Visceral Region

**Arteries**
- Superior mesenteric artery
- Celiac axis
- Gastric artery and vein
- Hepatic artery and vein
- Portal vein
- Splenic artery and vein
- Inferior mesenteric artery
- Inferior vena cava
- External iliac artery
- Internal iliac artery
- Aorta
- Renal artery
- Ankle artery
- Femoral artery
- Visceral arteries
- Abdominal arteries

**Veins**
- Superior vena cava
- Inferior vena cava
- Femoral vein
- Popliteal vein
- Posterior tibial vein
- Anterior tibial vein
- Percutaneous artery
- Portal vein
- Dorsal venous foot arch
- Dorsal digital veins

**Peripheral Region**

**L and R Common Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Internal Carotid Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Common Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Common Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

**L and R Femoral Artery and Vein**
- Berenstein
- Weinberg
- Sidewinder
- Straight Art

---

**Cerebral Region**

**Arteries**
- Middle cerebral artery
- Basilar artery
- Posterior cerebral artery
- Ophthalmic artery
- Vertebral artery
- Intracranial arteries

**Veins**
- Superior sagittal sinus
- Inferior sagittal sinus
- Superior petrosal sinus
- Inferior petrosal sinus
- Ophthalmic veins
- Anterior communicating vein
- Anterior cerebral vein
- Anterior middle cerebral vein
- Anterior lateral cerebral vein
- Anterior basal cerebral vein
- Anterior inferior petrosal sinus
- Anterior superior cerebellar vein

---

**IMPORTANT SAFETY INFORMATION**

While the AngioDynamics Angiographic Catheters are designed for use as an angiographic diagnostic catheter, use in this region may require a sheath introducer. Please see package insert for complete list of warnings and precautions.
