

# **Perchik Button™**

SUTURE RETENTION DEVICE

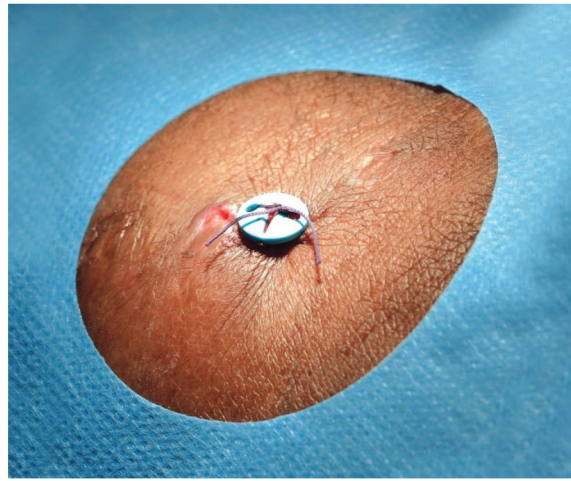

ANGIODYNAMICS®

## The New Standard of Patient Care

With the stitch of a button physicians can now provide patients with even better dialysis care. After vascular intervention, nurses can now locate and remove sutures with efficiency and ease. AngioDynamics is pleased to offer the Perchick Button—a unique product that raises the standard of patient care while remaining a simple yet highly effective tool.

Suture tied without button.

Use of button makes locating and removing sutures easier.

| Description     | Units/Box | Catalog No. |
|-----------------|-----------|-------------|
| Perchick Button | □ 10      | 13800201    |

**BOX INCLUDES:** 10 pouches (2 buttons per pouch)

PHYSICIAN'S SIGNATURE

### IMPORTANT RISK INFORMATION

**INDICATION FOR USE:** The Perchick Button is intended to aid wound healing by distributing suture tension over a larger area on the patient.

**CAUTION:** Federal (USA) law restricts these devices to sale by or on the order of a physician.

**WARNINGS AND PRECAUTIONS:** The Perchick Button is supplied sterile and is intended for single use only. Do NOT re-use or re-sterilize this device. Please see package insert for complete list of warnings and precautions.
