Caution: Federal (USA) law restricts the sale of these devices by or on the order of a physician.

AngioDynamics' VenaCure EVLT endovenous laser vein treatment offers patients a minimally-invasive choice for treating the source of their varicose veins. Studies have shown that laser treatment can provide with quicker recovery and a return to normal daily routines, as compared to surgery<sup>1</sup>. The VenaCure EVLT System includes a 1470 nm laser and 600 micron or 400 micron laser fiber procedure kits including accessories, marketing materials, support and more. For more information on these products, please visit [www.VenaCure-EVLT.com](http://www.VenaCure-EVLT.com).
